Search Notes

Hi,

**Attached are litigation search results in Lexis Nexis,
and CourtLink and Q-Pat/Orbit.**

**No Litigation was found for Serial Number 09927426
and Patent Number: 5936451.**

**If you have any questions, please feel free to contact
me.**

Thanks,

Diane

Delay circuit and method

AB

(US5936451)

A reduced area delay circuit and method are disclosed. The delay circuit uses a constant current source and a constant current drain to charge and discharge a capacitor and thus control the delay time of the delay circuit. The constant current source and drain can be implemented using current mirrors formed by configuring MOSFET transistors in a common source configuration. The delay circuit method includes the steps of receiving an input signal, delaying the input signal by using a constant current source or drain in combination with a capacitor, and then buffering the voltage on the capacitor using two inverters. A programmable delay circuit is also disclosed by adding additional pairs of current mirrors to the delay circuit and selectively enabling the pairs to adjust the delay time.
